

CAMPBELL UNION SCHOOL DISTRICT MEASURE T

To repair and upgrade local elementary/middle schools, including science, technology, math classrooms/labs; instructional technology infrastructure; fixing leaky roofs, wiring, plumbing and fire/security systems; improved accessibility for students with disabilities; shall Campbell Union Elementary School District authorize \$96,000,000 in bonds, levying up to \$30/\$100,000 assessed value (projecting no increase in current tax rates), generating \$5 million annually through term of bonds, with citizen oversight, audits, no funds for administrators, all funds for local elementary/middle schools?

BONDS—YES
BONDS—NO

Approval of Measure T does not guarantee that the proposed project or projects in the Campbell Union School District that are the subject of bonds under Measure T will be funded beyond the local revenues generated by Measure T. The school district's proposal for the project or projects may assume the receipt of matching state funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure.

COUNTY COUNSEL'S IMPARTIAL ANALYSIS OF MEASURE T

California law permits school districts to issue bonds with the approval of 55 percent of the voters. Such bonds may only be used for construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities. These bonds are required to be paid by the levy of *ad valorem* taxes—a tax on the assessed value of property within a district.

The Board of Trustees (Board) of the Campbell Union School District (District) proposes to issue such bonds in the amount of up to \$96 million for the purposes of repairing and upgrading elementary and middle schools, including science, technology, and math classrooms and labs; repairing and upgrading instructional technology infrastructure; fixing leaky roofs, wiring, plumbing and fire/security systems; and improving accessibility for students with disabilities.

As identified in the measure, projects may include but are not limited to:

- Construct new classrooms, classroom buildings, and other educational facilities to meet the requirements of enrollment and class size reduction, eliminate portable classrooms and facilitate educational programs.
- Renovate, modernize, or construct and equip school kitchens, cafeterias, and central District kitchen.
- Renovate, replace, or construct roofing systems.
- Renovate or construct Americans with Disabilities Act-compliant restrooms and classrooms.
- Upgrade, replace, or install Ethernet or other network access systems, telephone system, radio system, fire alarm system, public address system, intrusion alarm system and video surveillance system, and other security systems.
- Construct, repair, replace, renovate and rehabilitate walkways, covered walkways, breezeways and sidewalks.
- Resurface, refurbish, repair, reconfigure, and paint building exteriors, roads, and parking areas.
- Renovate, replace, or construct physical education playgrounds and fields and associated facilities.

COUNTY COUNSEL'S IMPARTIAL ANALYSIS OF MEASURE T-Continued

Project costs include the costs of furnishing and equipping facilities, and all costs that are incidental, but directly related, to the types of projects described in the measure.

The Board has certified that it has evaluated safety, class size reduction, and information technology needs in developing its project list.

Under the California Constitution, these bond funds cannot be used for teacher and administrator salaries or other school operating expenses. The District also must conduct independent annual performance and financial audits. State law requires the District to have an independent citizens' oversight committee to help make sure bond funds are spent only for projects included in the measure.

The District's stated best estimate of the highest tax rate to be levied to repay the proposed bonds is \$30 per \$100,000 of assessed value. The District estimates that the total debt service during the life of the bond, including principal and interest, will be approximately \$210 million.

Measure T was placed on the ballot by the Board.

A "yes" vote is a vote to authorize the issuance of the bonds in the amount of up to \$96 million to be secured by the levy of *ad valorem* taxes on property located within the District.

A "no" vote is a vote to not authorize the issuance of the bonds.

CAMPBELL UNION SCHOOL DISTRICT

BOND PROJECT LIST

Locations

Blackford School, 1970 Willow Street, San Jose, CA 95125
Campbell School of Innovation, 295 W. Cherry Lane, Campbell, CA 95008
Capri School, 850 Chapman Avenue, Campbell, CA 95008
Castlemont School, 3040 East Payne, Campbell, CA 95008
Community Day School, 2945 Van Sansul Avenue, San Jose, CA 95130
Forest Hill School, 4450 McCoy Avenue, San Jose, CA 95130
Lynhaven School, 881 S. Cypress Avenue, San Jose, CA 95117
Marshall Lane School, 14114 Marilyn Lane, Saratoga, CA 95070
Monroe Middle School, 1055 S. Monroe, San Jose, CA 95128
Rolling Hills Middle School, 1585 More Avenue, Los Gatos 95032
Rosemary School, 401 W. Hamilton Avenue, Campbell, CA 95008
Sherman Oaks School, 1800 Fruitdale Avenue, San Jose, CA 95128
Village School, 825 W. Parr Avenue, Campbell, CA 95008
District Office, 155 North Third Street, Campbell, CA 95008
Corporation Yard, 240 Harrison Avenue, Campbell, CA 95008
Former Parkway School, 1800 Fruitdale Avenue, San Jose, CA 95128

Repairs, Renovation, and Construction of Classrooms and School Facilities

- Renovate, replace, or construct roofing systems, including, but not limited to roofs, gutters, downspouts, screens, and water damage repairs
- Renovate or construct Americans with Disabilities Act-compliant restrooms and classrooms
- Renovate schools for modernization, efficiency, and to facilitate educational programs
- Upgrade, renovate, or construct Learning Centers (libraries) and multiuse rooms (cafeterias)
- Renovate, modernize, or construct other educational support facilities
- Construct new classrooms, classroom buildings, and other educational facilities to meet the requirements of enrollment and class size reduction, eliminate portable classrooms, efficiency, and facilitate educational programs
- Renovate, modernize, or construct and equip school kitchens, cafeterias, and central District kitchen, including food storage, preparation, serving and dining areas
- If and as opportunities become available, and to the extent the Board determines that bond funds are available for the purpose, acquire additional locations and construct, convert, renovate, or improve such additional locations as the Board determines may be necessary and appropriate.
- Construct or renovate restrooms as needed to support population size.

Energy Efficiency, Technology & Infrastructure Improvements

COMPLETE TEXT OF MEASURE T-Continued

- Upgrade, replace or install building systems as needed, including, but not limited to, interior plumbing, electrical wiring, lighting, heating, ventilation and air-conditioning systems
- Upgrade, replace, or install Ethernet or other network access systems, telephone system, radio system, fire alarm system, public address system, intrusion alarm system and video surveillance system, and other security systems
- Acquire and install energy-saving improvements (such as upgraded insulation, efficient lighting, double-pane windows, energy-star appliances)
- Acquire and install solar electricity generation and distribution systems, including rooftop installation of solar panels and structures to support additional solar panels and related infrastructure
- Repair, replace, install, add, or upgrade utility systems/lines as needed, including water lines, gas lines, sewer lines, storm drains, electrical lines and telephone lines, and connections to city systems
- Replace existing or acquire new classroom technology (including but not limited to computers, , digital projectors and document cameras) and network equipment (including but not limited to servers, network switches and routers, wireless network equipment, firewalls, and network security equipment)
- Furnish and equip classrooms and other facilities with appropriate items, including, but not limited to, desks, chairs and classroom furniture, and science and lab equipment

Exterior & Grounds Improvements

- Acquire and install exterior safety lighting, campus signage, and fencing
- Construct, repair, replace, renovate and rehabilitate walkways, covered walkways, breezeways and sidewalks
- Repair or upgrade roads and parking, including reconfigured or new pickup/dropoff areas
- Resurface, refurbish, repair, and paint building exteriors as needed
- Repair, replace, and resurface quads and other paved areas, including installation or repair of drainage and installation of seating, tables, lockers, and other amenities
- Expand or construct new storage facilities
- Renovate, replace, or construct physical education playgrounds and fields and associated facilities, including grass, artificial turf, asphalt, tracks, benches, drinking fountains, par course, gyms, sprinklers, rubber matting, and ball walls
- Landscape and irrigate grounds

Additional Necessary and Incidental Projects

- Remove, dispose of, and otherwise remediate hazardous materials, including asbestos, lead, etc., where necessary
- Other improvements required to comply with existing building codes, including the Field Act, and access requirements of the Americans with Disabilities Act (ADA)
- Address unforeseen conditions revealed by construction/modernization (including plumbing or gas line breaks, dry rot, seismic, structural, etc.)

COMPLETE TEXT OF MEASURE T-Continued

- Necessary site preparation/restoration in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including demolition of existing structures, removing, replacing, or installing irrigation, drainage, utility lines (gas, water, sewer, electrical, data and voice, etc.), trees and landscaping; relocating fire access roads; and acquiring any necessary easements, licenses, or rights of way to the property
- Rental or construction of storage facilities and other space on an interim basis, as needed, to accommodate construction materials, equipment, personnel, and interim classrooms (including relocatables) for students and school functions or other storage for classroom materials displaced during construction
- Acquisition of any of the facilities on the Bond Project List through temporary lease, lease-purchase, or other appropriate financial arrangements, or execute purchase option under a lease for any of these authorized facilities.
- All other work, furnishing and equipping, necessary and incidental to specific projects described above.

For any project involving renovation, repair, or rehabilitation of a building or the major portion of a building, the District shall be authorized to proceed with new replacement construction instead (including any necessary demolition), if the Governing Board determines that replacement and new construction is more practical than rehabilitation and renovation, considering the building's age, condition, expected remaining life, comparative cost, and other relevant factors.

The Bond Project List shall be considered a part of this ballot proposition, and shall be reproduced in any official document required to contain the full statement of the bond proposition.

For any project involving modernization or renovation of a building or the major portion of a building, the District shall be authorized to proceed with new replacement construction if the Governing Board determines that replacement and new construction is economically more practical considering the building's age, condition, and other relevant factors.

The listed projects will be completed as needed. Each project is assumed to include its share of furniture, equipment, architectural, engineering, and similar planning costs, program management, staff training expenses and a customary contingency, and escalation for unforeseen design and construction costs. In addition to the listed projects stated above, the Project List also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the Project List, payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by bond projects. The upgrading of technology infrastructure includes, but is not limited to, fiber optic cable and hardware necessary to increase bandwidth.

The allocation of bond proceeds may be affected by the District's receipt of State matching funds and the final costs of each project. In the absence

COMPLETE TEXT OF MEASURE T-Continued

of State matching funds, which the District will aggressively pursue to reduce the District's share of the costs of the projects, the District may not be able to complete some of the projects listed above. The budget for each project is an estimate and may be affected by factors beyond the District's control. The final cost of each project will be determined as plans are finalized, construction bids are awarded and projects are completed. Based on the final costs of each project, certain portions of the projects described above may be delayed or may not be completed. Demolition of existing facilities and reconstruction of facilities scheduled for repair and upgrade may occur, if the Board determines that such an approach would be more cost-effective in creating enhanced and operationally efficient campuses. Necessary site preparation/restoration and landscaping, may occur in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including ingress and egress, removing, replacing, or installing irrigation, utility lines, trees and landscaping, redirecting fire access, and acquiring any necessary easements, licenses, or rights of way to the property.

Bond proceeds shall be expended only for the specific purposes identified herein. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on or necessary and incidental to the bond projects, but not for other administrator or teacher salaries. The District shall create an account into which proceeds of the bonds shall be deposited and comply with the reporting requirements of Government Code § 53410.

ACCOUNTABILITY MEASURES

This bond measure has strict accountability requirements including:

1. All money will benefit local schools and CANNOT BE TAKEN BY THE STATE.

2. Require CITIZENS' OVERSIGHT and yearly reports to the community to keep the District accountable for how the funds are spent.

3. NO ADMINISTRATOR SALARIES. Proceeds from the sale of the bonds authorized by this proposition shall be used only for the acquisition, construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and not for any other purpose, including teacher or administrator salaries, pensions and other operating expenses.

4. FISCAL ACCOUNTABILITY. THE EXPENDITURE OF BOND MONEY ON THESE PROJECTS IS SUBJECT TO STRINGENT FINANCIAL ACCOUNTABILITY REQUIREMENTS. BY LAW, PERFORMANCE AND FINANCIAL AUDITS WILL BE PERFORMED ANNUALLY, AND ALL BOND EXPENDITURES WILL BE MONITORED BY AN INDEPENDENT CITIZENS' OVERSIGHT COMMITTEE TO ENSURE THAT FUNDS ARE SPENT AS PROMISED AND SPECIFIED. THE CITIZENS' OVERSIGHT COMMITTEE MUST INCLUDE, AMONG OTHERS, REPRESENTATION OF A BONA FIDE TAXPAYERS ASSOCIATION, A BUSINESS ORGANIZATION AND A SENIOR CITIZENS ORGANIZATION. NO DISTRICT EMPLOYEES OR VENDORS ARE ALLOWED TO SERVE ON THE CITIZENS' OVERSIGHT COMMITTEE.

FISCAL ACCOUNTABILITY: IN ACCORDANCE WITH EDUCATION CODE SECTION 15272, THE GOVERNING BOARD WILL APPOINT A CITIZENS' OVERSIGHT COMMITTEE AND CONDUCT ANNUAL INDEPENDENT AUDITS TO ASSURE THAT FUNDS ARE SPENT ONLY ON DISTRICT PROJECTS AND FOR NO OTHER PURPOSE. THE EXPENDITURE OF BOND MONEY ON THESE PROJECTS IS SUBJECT TO STRINGENT FINANCIAL ACCOUNTABILITY

COMPLETE TEXT OF MEASURE T-Continued

REQUIREMENTS. NO DISTRICT EMPLOYEES OR VENDORS ARE ALLOWED TO SERVE ON THE CITIZENS' OVERSIGHT COMMITTEE.

TAX RATE STATEMENT

TAX RATE STATEMENT

An election will be held in the Campbell Union School District (the "District") on November 8, 2022, as to whether the District should be authorized to sell up to \$96 million of general obligation bonds. If the sale of bonds is authorized, the District expects to sell the bonds in series over time. Proceeds of each series of bonds sold will be used to fund school facility projects identified in the Bond Project List. Principal and interest on the bonds sold will be paid from proceeds of an annual ad valorem tax levied against all taxable property in the District. The following information is provided to describe the projected tax rate impact of this bond measure in compliance with Sections 9400 through 9404 of the Elections Code of the State of California and to provide context for such projections.

It is the intention of the District that the bond authorization resulting from this measure will not cause tax rates to exceed the current amount taxpayers are already paying.

1. The best estimate from official sources of the average annual tax rate that would be required to be levied to fund the bond issue over the entire duration of the bond debt service, based on assessed valuations available at the time of the election or a projection based on experience within the same jurisdiction or other demonstrable factors is 1.20 cents per \$100 of assessed value (or, put another way, \$12.00 per \$100,000 of assessed value) of all property to be taxed.

2. The best estimate from official sources of the highest tax rate that would be required to be levied to fund the bond issue over the entire duration of the bond debt service, based on assessed valuations available at the time of the election or a projection based on experience within the same jurisdiction or other demonstrable factors is 3.00 cents per \$100 of assessed value (or, put another way, \$30.00 per \$100,000 of assessed value) of all property to be taxed.

3. The best estimate from official sources of the total debt service, including the \$96 million principal and interest, that would be required to be repaid if all the bonds are issued and sold is \$210 million.

4. Voters should note that the estimated tax rates referenced in paragraph two and paragraph three above and the estimated total debt service referenced in paragraph four above are specific to bonds issued and sold under this authorization and are and will be in addition to the tax rates levied in connection with other bond authorizations approved or to be approved by local voters of the District or of any other overlapping public agency.

5. Voters should note that it is the intention of the District to issue such bonds and to structure their repayment in such a way that the combined tax rate necessary to repay all District bonds, including these bonds (if authorized) and all bonds previously authorized by District voters (specifically 2002 Measure H, 2010 Measure G, and 2016 Measure CC), will not exceed \$67.20 per \$100,000 of assessed value which is the tax rate that is currently being levied to repay all District bonds and the tax rate that has been levied to repay all District bonds in each year since tax year 2017-18.

6. Voters should note that the estimated tax rates referenced in paragraph two and paragraph three above, the estimated total debt service referenced in paragraph four above, and the "no-tax-rate-increase" financing plan described in paragraph six above, are based on

TAX RATE STATEMENT-Continued

current projections and are not binding on the District. The projections are based on assumptions about when bonds will be sold and how much, what interest rates will be achieved at the time bonds are sold, the repayment structure and maximum term of each bond issue, the rate of growth of the District's tax base during the period of time that bonds are outstanding, and other factors. The actual tax rates to be levied will be determined annually based on what is owed on bonds coming due, the size of the District's tax base at that time, and other factors.

7. Voters should note that the estimated tax rate will apply to the assessed value of each property on Santa Clara County's official tax rolls, not on the property's market value. In tax year 2021-22 (the most recent year for which such figure is available), the median assessed value of a residential property in the District was \$721,562. Property owners should consult their own property tax bills to determine their property's current assessed value and applicable tax exemptions.

Dated: 8/1/2022.

Shelly Viramontez
Superintendent
Campbell Union School District

ARGUMENT IN FAVOR OF MEASURE T

Vote YES on T to make critical elementary and middle school repairs to ensure all students have equal access to a high-quality education—without raising taxes.

Many of our neighborhood elementary and middle schools were built in the 1950s and have leaky roofs, aging electrical wiring and inefficient heating and cooling systems. Measure T will make these critical repairs to ensure every student in safe and modern classrooms.

Voting Yes on T will not increase tax rates. Measure T simply extends the current tax rate previously approved by voters to fund school repairs and improvements.

Our local schools have been responsible for paying off old bonds, so now we can improve our local elementary and middle schools without raising taxes to fund necessary improvements.

Your YES vote on Measure T will:

- Fix leaky roofs and update fire alarms and campus security systems
- Repair and modernize aging classrooms and update science, technology, and math labs to prepare students for success in high school, college and competitive careers
- Update classrooms and facilities for hands-on learning
- Update outdated wi-fi and internet systems to bring internet speed and connectivity to the level needed for modern educational standards
- Improve accessibility for students with disabilities
- Improve air filtration and indoor air quality at the oldest facilities
- Provide renewable energy systems, improving energy efficiency, lowering operation costs, and meeting today's environmental standards

Every Penny of Measure T Stays Local:

- All funds are locally controlled and cannot be taken by the State
- No funds can be used for administrator salaries or pensions
- Independent citizens' oversight and audits are required

By keeping our neighborhood schools strong, we keep our community strong and protect local property values.

ARGUMENT IN FAVOR OF MEASURE T-Continued

Vote YES on T to provide every child the best opportunity for success—WITHOUT INCREASING TAXES.

REBUTTAL TO ARGUMENT IN FAVOR OF MEASURE T

In 2016, Campbell Union Elementary School District (CUESD) voters approved a \$72,000,000 bond debt for "repairing leaky roofs" and "providing disabled access" throughout district schools.

That followed 2010's **\$150,000,000**, to upgrade facilities.

Taxpayers are still paying for those.

Just 6 years later, CUESD wants to do it all again, for **\$96,000,000 MORE in bond debt**.

Does your home require roof repairs every 6 years?

Are school buildings constructed so poorly that they *do*?

Why wasn't access provided to the disabled 6 years ago as promised?

It's amazing how fast today's classrooms seem to become obsolete!

Can Campbell Union Elementary School District be trusted with this gargantuan, \$96,000,000 IOU?

They say science equipment and laboratories need upgrading.

Would YOU obtain a mortgage to acquire a new PC?

NO! You 'd shop, plan for it, save, and buy it—and in 3-5 years, shop again!

Shouldn't CUESD'S **annual operating budget** cover repairing roofs, maintaining classroom technology and ventilation? High-priority repairs/maintenance deserve a budget line.

If you resent when necessities are treated as afterthoughts, and voters as ATMs...

Vote NO.

With soaring inflation, families must budget strictly. CUESD must also confront prioritizing their budget sensibly.

Proponents say Measure T's funds can't go toward administration. That's an empty promise: funds generated **separately** from this bond **CAN BE DIVERTED limitlessly to administration**. Don't be fooled by the shell game.

Please reject costly funding methods.

Vote NO on Measure T.

Like us, you can be FOR schools, FOR students, FOR teachers, but **AGAINST** Measure T.

ARGUMENT AGAINST MEASURE T

In 2016 voters approved a \$72,000,000 bond measure for the purpose of "repairing leaky roofs" and "providing disabled access" throughout the district schools.

Now, just 6 years later, they want to do it all over again, for \$96,000,000 more in debt, plus interest costs.

Does your home require roof repairs every 6 years?

And one wonders why school roofs require repairs every 6 years.

Why wasn't access provided to the disabled 6 years ago as promised?

It's amazing how fast classrooms become obsolete these days.

Can the Campbell Union Elementary School District be trusted with this \$96,000,000 bond money debt?

The answer is clearly NO!

They have already been wrongly entrusted with \$150,000,000 (in 2010) to upgrade facilities, and another \$72,000,000 (in 2016) (saddling us with *another 25-30 years of debt!*)...to do the same thing all over again.

Are school buildings constructed so poorly that they need repairs every 6 years?

They say they want to upgrade "science equipment and laboratories", but who buys computer equipment that will be obsolete in 3-5 years by taking out a 25-30 loan?

That's nuts, right?

No sane person would take out a loan for 25-30 years to buy technology that's going to be obsolete in 3-5 years. But that's just what the District is asking you to do.

Let's reject these wasteful expenses by voting "NO," on Measure T.

Like us, you can be for schools, for students, for teachers, but against Measure T.

Mark W.A. Hinkle
President: Silicon Valley Taxpayers Association

Joe Dehn
Chair: Libertarian Party of Santa Clara County

REBUTTAL TO ARGUMENT AGAINST MEASURE T

The two opponents—one of which does not even live in our district—ignore our community's history of working together to support our local students, and they grossly misrepresent the facts. Measure T will NOT increase taxes.

Our region's most respected taxpayer champions support Measure T because providing quality education in safe, up-to-date schools is one of the best investments we can make to protect home values and keep our community strong.

Here are the **FACTS**:

FACT: Campbell Union School District has a proven track record of responsible spending, with the Citizens' Oversight Committee reports and annual audits to prove it.

FACT: While some of our 12 schools have been improved, many are still in need of repairs and upgrades. Measure T will make critical improvements and safety repairs to 60-year-old classrooms to ensure all students have equal access to a high-quality education.

FACT: Measure T provides locally controlled funding that cannot be taken by the State.

FACT: There is no other source of funding to address these needs:

- Make urgent repairs to older facilities and increase safety/security
- Modernize aging classrooms and update science, technology, and math labs
- Update outdated wifi and internet systems

FACT: Measure T qualifies Campbell Union School District for state matching funds that would otherwise go to other communities.

FACT: A mandatory independent citizens' oversight committee and annual audits will ensure Measure T funds are spent only on voter-approved projects.

Study the FACTS and vote YES on T for safe, strong schools—without increasing taxes.
